

# POWER UP!

VYNCO

# YOU HAVE OPTIONS

## SWITCHGEAR FOR YOUR HOME

**Building or renovating your next home?**

Vynco's POWER UP programme provides you with multiple options regardless of your budget. Whether it's something classic or completely customised, you'll be surprised at the options you have to complete your home.

# ABOUT US

We are a New Zealand family owned business that has been operating for over 30 years. We are proud to have our own in-house R&D team conducting research, design and the development of switchgear in NZ.

# ECO PACKAGING

Sustainability is a big part of what we do and who we are at Vynco. We strive to minimise our environmental impact where possible, to keep New Zealand clean and green.

We have removed most plastics and paper from our packaging, including moving instructions to our website in digital form, which has saved over 110,000 sheets of paper and counting! We now use biodegradable, molded fibre packaging across some of our range, which breaks down with exposure to sun and water, at a much quicker rate than other materials. Like egg cartons, this form of packaging is composed of paper, card and newsprint, and fits snugly around the product, preventing damage.

Help us to reduce construction waste from your home by choosing Vynco products.

# VYNCO HOME

Our Home switchgear and socket range embodies a classic look that would complement any home. Home is the logical choice for any project.

Home is available in both black and white, with the ability to change out and customise any specialty switches to suit your specific needs.

# VYNCO URBAN

Vynco Urban combines engineering excellence with contemporary design to create a range perfect for high-end homes and buildings.

To tastefully blend switchgear into any environment, Urban has an ultra slim fascia\*. Urban plastic plates have the ability to be custom painted, or for a more muted finish select metal cover plates for powdercoating.

Like previous ranges, Urban also has customisable specialty switches to suit your specific needs.

\* the double horizontal with extra switch/USB has an 8.5mm profile.

# SWITCH ON TO CUSTOMISATION

## Inspired to do something a little different?

Vynco has multiple customisation options.

You can choose your own colour paint to match your decor, or create a feature accent on your wall.

You can also select from our large range of specialty switches, dimmers, motion sensors or USB chargers.

To view our full range of specialty switches please visit:  
[www.vynco.co.nz](http://www.vynco.co.nz)

# SWITCHES

We have a range of different switches to suit your requirements. You can choose from standard, dedicated, push button switches or a push button dimmer which can also be used as a standard switch.

STANDARD SWITCH

Standard switches can be ordered as complete units (refer to previous pages.)

DEDICATED SWITCHES

Dedicated switches are used for specific items or lighting in the home i.e "sensor" or "outside" which are laser engraved.

PUSH BUTTON SWITCH

PUSH BUTTON DIMMERS

**CUSTOM ENGRAVING AVAILABLE ON REQUEST.**

The push button switch and dimmer have a blue LED making it easy to locate in the dark.

Plates can be purchased separately, for 1-6 switches when selecting custom options such as dedicated switches, dimmers and push buttons.

# DIMMERS

Dimming options for your home – great for living rooms, bedrooms, and home theatres. Select the rotary dimmer for a more traditional look, or the push button dimmer for a modern option.

**TRADITIONAL DIMMERS WITH STANDARD SWITCHES**

**TRADITIONAL DIMMERS WITH PUSH BUTTON SWITCHES**

**PUSH BUTTON DIMMERS**

**TRADITIONAL DIMMING  
OPTION WITH STANDARD  
SWITCHES**

**OR**

**TRADITIONAL DIMMERS  
USING MODERN PUSH  
BUTTON SWITCHES**

**OR**

**REMOVE TRADITIONAL DIMMERS  
AND OPT FOR MODERN PUSH  
BUTTON DIMMERS**

Use the **push button dimmer** for a flush look, complimenting the slimness of our Urban range.

88PIRM  
MOTION SENSOR

# MOTION SENSORS

Great for use in walk-in wardrobes, ensuites, pantries and hallways. Used in conjunction with the Diaz Step Light, simply walking past the sensor will turn the light on.

## MOTION SENSOR WITH THE DIAZ STEP LIGHT

**ALSO  
AVAILABLE IN  
SILVER & BLACK  
METAL!**

88USBM  
USB POWER CHARGER

# USB POWER CHARGER

Need to charge your phone or other USB appliance? This charger is perfect for living rooms, studies and bedrooms, removing the need for power adaptors and additional powerpoints. This charger can also be used in a switch, not just in a powerpoint.

# CUSTOM PAINTING

Plastic cover plates can be painted locally to any paint colour!

**Enquire about custom painted\* Urban or Fusion today**

Splashbacks complimenting the wall were an inspiration for our custom colour switches and powerpoints. Cover plates are painted locally in New Zealand to match any paint colour\*\*. Our plastic plates offer a glass plate look with a gloss finish.

The ease of fitting the plates makes it simple to clip off and replace as trends and colour schemes change. Installing Urban helps future-proof your building project.

\*Minimum order quantities apply.

\*\*PLEASE NOTE: Vynco endeavours to match colours as closely as possible but final colours may vary slightly from original colour swatches. Colour matching whites and creams is difficult, we suggest using Fusion or Urban White.

# CUSTOM POWDERCOATING

Metal cover plates can now be powdercoated!

**Enquire about powdercoated\* metal Urban today**

We provide special powder coating, from a set colour range, to give your switchgear a more matte, durable finish and an exact colour match.

Powdercoating metal plates removes unwanted sheen and makes for a softer yet high quality accent to match the mood of your home. Future-proof your home for when colour trends change by simply swapping out the plates.

\*Minimum order quantities apply.

# DIAZ STEP LIGHT

Match the Diaz Step Light to any of our Fusion or Urban switches or powerpoints, available in white, black metal or silver metal. The Diaz Step Light is perfect for illuminating hallways, stairwells, or under vanities.

### How can you see the product?

This catalogue has the entire standard product range.  
Alternatively, you can visit our website [www.vynco.co.nz](http://www.vynco.co.nz)  
or follow us  @vynco\_industries

If you want to get your hands on the product, please contact your local electrician and they will be able to show you some samples.

Alternatively, most leading electrical wholesalers will stock these ranges and will be happy to show you the product in-store.

If these options don't suit, please contact our team at [sales@vynco.co.nz](mailto:sales@vynco.co.nz) and we'll arrange a viewing.
