AUSTRALIA

Best Environmental Practice - PVC Pipes

Evaluated to:

AS/NZS 1260:2017 – PVC-U pipes and fittings for drain, waste and vent applications
AS 2887:1993 - Plastic Waste Fittings

The licensee complies with the requirements of Best Environmental Practice – PVC as per the relevant Australian or International Standard and Section 7 as specified in the Green Building Council of Australia ("the Requirements") Literature Review and Best Practice Guidelines for the Life Cycle of PVC Building Product's using the compliance pathway Number 2 - Manufacturer's Declaration as measured by the Green Star PVC Credit Auditor Verification Guidance - November 2013 ("the Criteria").

The documentation was reviewed during product certification audits conducted by ApprovalMark International in 2018 and found to comply with the following requirements:

- Manufacture of PVC Resin
- Manufacture and end of life management of PVC products
- Use of PVC Recyclate in PVC products

Note - Any changes introduced to above requirements shall immediately be reported to ApprovalMark International in order to examine the validity of the certificate.

Certificate No. **BEP-AMI 00388**
