

Box Gutter 125mm

Metalcraft's traditional 125mm Box Gutter is another popular rainwater system solution that is predominantly used in residential applications. With clean, bold lines and a high face Box Gutter 125mm conceals the sheet ends at the eave line and looks great with profiled Longrun sheeting or Tile roofing. Internal and external brackets are available in this profile and is suitable for use with Metalline Fascia. Box Gutter 125mm is available in Zinalume, Galvsteel, Colorsteel Endura and Colorsteel Maxx.

Cross-sectional Area: 8435mm²

all dimensions are nominal

Catchment Area of Roof v Cross Sectional Area of Gutter

Note: The graph is based on a rainfall intensity of 100mm / hour and roof pitches less than 10 degrees. For more information on roof catchment areas and the effect of gutter cross sectional areas download the document on Roof Drainage

Manufacturing Locations Auckland, Palmerston North

For other Metalcraft locations Box Gutter 125mm can be manufactured as a flashing
