

SOPHISTICATED STYLING, SUPREME QUALITY

Truly timeless style is obvious, even to the untrained eye. It's present in the balanced shapes, the subtle twists on standard designs, and in the absolute commitment to lasting quality and function.

It's what sets TOTO apart, and what gives a bathroom fitted with TOTO products an indefinable feeling of luxury and quality the moment you step through the door.

Exclusive to Plumbing World in New Zealand, TOTO's reputation for unsurpassed style and function has been created over their 100 years in business. Since 1917 the brand has manufactured its products using Japanese production techniques, which are shown time and again to be amongst the best in the world. Each product is then rigorously tested to ensure quality.

TOTO's long history is also due to the company's commitment to research and development – they make ongoing and substantial investment into developing better, beautiful and functional products for your home.

It's part of the reason why TOTO is considered a world-leading brand in bathroom fittings and fixtures, and why each piece is backed by an impressive warranty.
