CARE AND MAINTENANCE

Your aluminium products are pre-finished in long-lasting electrostatically applied powder coatings. A combination of painstaking preparation, careful workmanship and the latest technology have come together to bring you your powder coated doors.

Powder coating is one of the most durable colour coatings available and with very little effort on your part will provide many years of excellent service. Powder coatings are maintainable for an indefinite period under normal environmental conditions, provided that the recommended care and maintenance guidelines are followed. These guidelines are available from our customer service team on 09 573 2060 or may be downloaded directly from our web site www.fabtech.co.nz

WARRANTY[†]

All standard Fabtech products combine a 5 year Workmanship and Weather Tightness Guarantee; with a 10 Year Powder Coating Guarantee, covering colour integrity and colour adhesion.

[†]Standard colours only, conditions apply.
