

Access Panel

Durable White Powder Coated Steel

NEW

QUALITY FINISH

Powder coated steel

HANDLE-LESS

Push catch closing system

EASY INSTALLATION

Screws provided

Masons Access Panel provides easy access through dry lined walls and ceilings to conceal plumbing and electrical. Masons Access Panel is made from quality powder coated steel with a Push Catch closing system. Providing easy access requirements through non-fire rated walls and ceilings for residential and commercial buildings.

Applications

Easy access to:

Plumbing; Connections, valves, stopcocks, spa pumps

Electrical; Fuse boxes, control switches, security systems, internet connections, heating and ventilation systems.

Roof Access; for the 600mm model

Installation Guide

1. Cut a hole in the plaster board to match panel size adding 2.5mm each side to allow for clearance. (eg 205 x 205mm for the 200mm panel)
2. Slot the hatch (without door for easy installation) into the opening
3. Bend the steel tie tags, located around the inside of the frame, to the vertical position and insert the panel into the opening.
4. Either secure the steel Tie tags to the Stud or support framing or fold them over to secure to the plaster board.
5. Fix the screws provided through the access panel and tags to the timber frame supports until the framing is securely fixed to the timber frame supports.
6. Insert the door and secure with screws provided.
