

PRODUCER STATEMENT

WATER TANKS

ISSUED BY: Devan Plastics Limited

Warranty

Devan Plastics Ltd warrants each above ground water tank to be free of defects in workmanship or materials for a period of 20 years for all water tanks applied in a residential application and 10 years for commercial applications. It is this commitment to excellence that makes Devan Plastics Limited the market leader in the field of water storage and wastewater treatment. Please see the installation instructions and plumbing guidelines for further details.

Compliance and Certification

Design and testing of Devan polyethylene tanks has carried out by Registered Engineers and Consultants in order to comply with AS/NZS 4766 and have tie-down and lifting lugs (30,000 litres down to and including 10,000 litres) to comply with NZS 1170.5 regarding seismic resistance.

Devan tanks are manufactured in New Zealand from specifically designed Polyethylene that is certified by the manufacturer to be fit for purpose. The base resin used in the manufacturing process is compliant with the food contact requirements of AS/NZS 2070 and drinking (potable) water standard AS/NZS4020:2005.

This product has been developed and tested in the market place over many years for the manufacture of upright water storage containers.

The polyethylene material used in the manufacture of Devan tanks will not degrade, is UV stabilized for New Zealand conditions and it is also resistant to algae growth as a result of its formulation and not from any addition of fungicides.
