## Juralco ClosetPro® Melamine Wardrobe System - General

The HomePlus Melamine Wardrobe Storage Systems are designed and manufactured in New Zealand to meet your individual requirements.

The system combines anodised aluminium components and Melamine cabinetry to make a range of storage configurations for your home for requirements. Each unit is available as standard or custom made and installed in your home by trained professionals.

Shelving in White, 16mm Particle Board or Coloured 18mm MDF PVC Edging is standard and a strong metal Soft close mechanism, drawer sides and thick drawer bottoms add up to quality that lasts a lifetime.

**Classic 395  
Wall hung**

**Premium 395  
Free Standing**

**Ultra 550  
Free Standing**

### General Description

- Easily erected, simple and stylish. Complements modern, contemporary homes
- Available as Wall mounted or Floor Standing units
- Multiple uses including wardrobe organizing, Garage Shelving, Laundry Shelving and Linen Storage

# Juralco ClosetPro® Melamine Wardrobe System - Installation Tips

For all Classic 395, Premium 395 and Ultra 550 Wardrobes

## 1 - Closet Rail Maximum Recommended Spans

Standard Aluminium Closet Rail H/8384/3  
Maximum unsupported spans...  
- Long Hanger (Coats etc) 900mm  
- Double Hanger (Shirts etc) 1100mm

Heavy Duty Aluminium Closet Rail H/8384HD/3  
Maximum unsupported spans...  
- Any hanger 1800mm

Use the Closet Rail Centre Support H/CO 8384CS/CP for longer spans

## 2 - Connector Insertion

### Connector Housings

**CORRECT WAY UP**

Lockable Connector Housing

Slot facing to outside

Connector Housing Hole

**WRONG WAY**

Push fit Connector Housing H/CO8383

Slot facing to outside

Connector Housing Hole

**Lockable Connector Housing** must be used on bottom shelves or in critical strengthening areas. Tap fit in place. After attaching shelf to the Connector Bolts the locking screws must be tightened (from below)

**Push Fit Connector Housing** can be used in non critical areas, such as middle shelves

## Connector Hole Drilling

If needed extra Connector holes can be drilled with a Bosch Wood Forstner Drill Bit, 20mm Obtainable from General Hardware stores.

- 1 - Mark out hole centres carefully.
- 2 - Set correct depth.

# Juralco ClosetPro® Melamine Wardrobe System Wardrobe Assembly Instructions

For all Classic 395, Premium 395 and Ultra 550 Wardrobes

1

Vertical Panel, Fittings. Attach all fittings to vertical panels, to your plan See Panel predrilled layouts pages 5-6.

After doing one side, turn over and do other (if necessary).

Suspension Bracket - 2 x 10g x 12 self tappers.  
Shelf Bolts - Special connector bolts.  
Drawer runners - Euro screw.

Attach Closet Rail Sockets if needed (tap in, no screws required)

After doing one side, turn over and do other (if necessary)  
Or cover up all seen holes with stick on dots.

Vertical panels now finished.

2

Shelves. Tap Connector Housings in place, 4 per shelf.

**When inserting...**

- 1 - Open slot to top (**ie not upside down**)
- 2 - Slot facing outwards.

Shelf now finished.

## Connector Housings

WRONG WAY

**Lockable Connector Housing** must be used on bottom shelves or in critical strenghtening areas. Tap fit in place. After attaching shelf to the Connector Bolts the locking screws must be tightened (from below)

**Push Fit Connector Housing** can be used in non critical areas, such as middle shelves

**Juralco ClosetPro® Melamine Wardrobe System  
Wardrobe Assembly Instructions**  
For all Classic 395, Premium 395 and Ultra 550 Wardrobes

**3**

Installation. Use level to attach full length Closet Hanging Track.  
Ensure Track, screw attached firmly into studs.

Attach first Vertical panel.  
Tighten vertical then horizontal screws on Suspension bracket.

Working from one end...  
Clip on second vertical panel.  
Then insert Shelves or Rail between these two panels.  
Square up second panel, then secure suspension bracket in place.  
Then lock shelves (if any) between the first two panels.

Repeat, working along until last panel installed and secured.

Cut Top panel to length.  
Edge band ends if edge is visible to the customer.

Place Top panel in correct position,(on top of all vertical panels)  
Starting at one end, use Countersink+drill to drill down into Vertical panels.  
Screw attach at every panel, screw head flush.

Finally install all shelves, Closet Rails and Drawers.  
Final clean up, clean all surfaces.

Job finished.
