

StormLite[®]
DETENTION & RETENTION SOLUTIONS

Made to Order Economy.

StormLite[®] 1200 dia*

UNDERGROUND TANK

With two lid options available to suit gardens, driveways, or carpark, StormLite[®] tanks are buried underground, saving precious outdoor space and eliminating the intrusive visual impact of an above ground tank.

- 1 Designed using FEA analysis to ensure the strongest tank shape for high load applications
- 2 Additional inlet locations up to 250mm OD pipe
- 3 Rain harvesting outlet location
- 4 Additional outlet locations up to 250mm OD pipe
- 5 Stabiliser sections to hold tank vertical in trench

Made to Order Economy.

StormLite® 1200 dia* UNDERGROUND TANK

APD's new StormLite® underground tank is designed using FEA analysis to ensure strength and durability. Made from tough potable grade polyethylene corrugated pipe that won't corrode, the StormLite® tank is a fraction of the weight of concrete tanks, allowing for ease of installation and movement on site.

- 1 Two lid options to suit grass and driveway locations
- 2 Witness lines at 50mm increments to allow for easy reduction of riser height
- 3 Riser height to allow for buried depth of up to 650mm without the need for extensions
- 4 Witness lines to make for easy inlet, outlet, and overflow locations
- 5 250mm spigots location for joining tanks
- 6 Silt trap to meet council requirements
