

# Box Gutter 300mm

Box Gutter 300mm is a rainwater system that provides excellent water discharge capacity for commercial projects. It is able to handle larger volumes of water, and is easy to clean out if required. Box Gutter 300mm is fixed with external brackets and is available in Zinalume, Galvsteel, Colorsteel Endura and Colorsteel Maxx.

Cross-sectional Area: 27000mm<sup>2</sup>

**Catchment Area of Roof v Cross Sectional Area of Gutter**

Note: The graph is based on a rainfall intensity of 100mm / hour and roof pitches less than 10 degrees. For more information on roof catchment areas and the effect of gutter cross sectional areas download the document on Roof Drainage

**Manufacturing Locations** Auckland

For other Metalcraft locations Box Gutter 300mm can be manufactured as a flashing  
Box Gutter 300 is available for purchase from all Metalcraft branch locations
