Hurricane
BUILT TO LAST

Fold Top Panels are the accepted profile recognised as a superior home and pool fence solution.

Hurricane fence panels are an attractive slimline profile offering a modern style of home and pool fencing.

Pool Gate Latch with child proof opening mechanism.

KEEPING THEM SAFE

For over 80 years Hurricane has provided a range of high quality, hard wearing products made to last in New Zealand's harsh environment.

Keep young children well away from the dangers of an unguarded swimming pool with the Hurricane Pool Fence System. Long, strong, vertical uprights do not provide a foothold.

The open styling of the Hurricane Fold Top, Square Top Fence and Pool Gate allows the pool to be seen at all times. The fence is compatible with most post materials, but an attractive result is achieved with Hurricane Pool Fence square tube posts.

The option of flange posts enables the posts to be bolted onto an existing deck or paving.

PRODUCT FEATURES

The Pool Gate is available with optional Magna gate latch and self closing hinges. The Hurricane Fold Top, Square Top Fence and Pool Gate are manufactured to the highest quality standards, galvanised for long life protection and like all Hurricane products are 'Built to Last'.
