

UNIJET CEILING DIFFUSERS

Duct Size (mm)	Colour	Order Code
150	Ice White	DCT2610
200	Ice White	DCT2611
250	Ice White	DCT2783

Unijets have been designed not to just ‘dump’ air straight down like other similar diffusers.

The Unijet disperses the air over a greater area because its louvres are at different angles. This gives a more even temperature over a greater area.

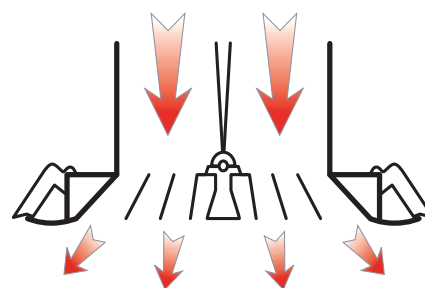

- Manufactured from V-Zero fire rated ABS plastic AS/NZ 1530 pt 3
- Designed to push supply air into the room as shown.
- Spring loaded fixing clips.
- Adjustable ‘set and forget’ damper blade.
- Comes with damper blade adjustment tool.
- Resistant to scratching and fading.
- Positive lock duct tabs.

DIMENSION INFORMATION

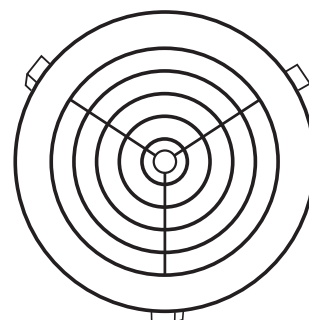

Duct Size (mm)	Face Size (mm)	Spigot Diameter (mm)	Spigot Length (mm)	Cut-Out Size (mm)
150	220	145	70	200
200	268	195	70	250
