Proud members of the New Zealand
Green Building Council

Start your Design and Selection at Tile Warehouse with market leading selections of Tiles, Outdoor Paving, Alpine SPC Stone-composite flooring, Bathware and Taps.

WHY TILE WAREHOUSE?

- We are NZ's market leader with the largest stocked range.
- We source the latest ranges and trends from Italy, Spain and around the world.
- Our trained consultants understand about tile and design and will help you create your dream space be it your bathroom, living room, kitchen, feature wall, pool or patio.
- We have a store near you with 30 stores nationwide.
- We import all our ranges ourselves so that we only offer first quality product covered by our 10 year Guarantee.
- We have the best range of tile timber - economical and hardwearing for all living spaces.
- We are the industry experts and we make design and selection easy.

THE PANTONE COLOURS OF THE YEAR 2021 ARE...

PANTONE 17-5104 Ultimate Gray + PANTONE 13-0647 Illuminating

"A marriage of colour conveying a message of strength and hopefulness that is both enduring and uplifting." Pantone2021

Two independent colours that highlight how different elements come together to support one another, best express the mood for Pantone Colour of the Year 2021. Practical and rock solid but at the same time warming and optimistic. It is a story of colour that encapsulates deeper feelings of thoughtfulness with the promise of something sunny and friendly. A message of happiness supported by fortitude, the combination of PANTONE 17-5104 Ultimate Gray + PANTONE 13-0647 Illuminating is aspirational and giving us hope. We need to feel that everything is going to get brighter – this is essential to the human spirit...post Covid.

SHOP Pantone Colourways at Tile Warehouse and add an uplifting, positive element to your home this year...

BLANCO

GARDEN DECOR

HELSINKI

Helsinki from Spain has an aesthetically pleasing "soft touch" finish that feels as soft as skin with all of the stunning natural surface characteristics of porcelain tile. With its exotic mural, it meets the trend in decoration of natural and jungle styles.

Helsinki has a NeoSkin finish - a new technique - and a step forward in the production of materials.

A perfect option for those larger living areas, Helsinki will make a convert out of anyone attached to carpet!

Available in Garden Decorative and a matching plain Blanco in 1000x1000mm.

If you or other family members in your household suffer from Asthma or allergies, use tile in your home as tiles are inhospitable to dust, mould, and bacteria.

CONCEPT 1 INK

Concept 1 is about design, form and function at its finest.

A stunning pattern - matt background with a polished raised texture. A dry-powdered surface on the tile makes it suitable for high foot traffic areas.

This tile makes a statement in flooring and also makes an amazing feature wall or splashback.

Size 600x1200mm

A subtle way to add interest to your walls is by using texture. Tiles with 3D surfaces instantly grab attention, whether in small-scale mosaic patterns, regimented ribbed designs or feature undulating wave effects. Opting for white or neutral colourways will give you the confidence to play around with the design, combining textured tiles with co-ordinating smooth ones to divide up the space.

STUCCI

This is a beautiful wall range in size 75x230mm.

Great for kitchens, bathrooms, laundries, butler pantries - all internal wall areas.

A tiled splash-back creates the perfect opportunity to add personality by being creative with design. Thanks to the countless selection of tile options on the market today, splashbacks no longer have to be plain white or be made of a single piece of glass. The colour, texture and shape variations in tiles lend themselves perfectly to splashback application making it easy to add design flair and create an enviable space for family and friends.

BIANCO GRECO

GRIGIO LUMINOSO

GRIGIO MILANO

NERO OMBRATO

FRAGMENTA

A collection of through-body stone-effect tiles with surprising technical features and a timeless aesthetic. The three available surfaces allow for infinite solutions to meet contemporary design requirements, where quality, performance and tradition blend to become one.

The skillfully balanced colour nuances and the natural stone effect create a unique atmosphere in residential settings and public spaces. There are no limits to design creativity; the infinite variations maintain the highest technical features and ooze character and functionality.

Available in Bianco Greco, Grigio Luminoso, Grigio Milano and Nero Ombrato in soft finish, 600x600 and 600x1200mm (R10), and structured finish 600x600mm (excluding Bianco Greco).

Tiles & Thermal Mass – What you need to know

*What is Thermal Mass and why should you know about it?
 Thermal mass works by using a simple principle of physics: heat moves from warmer surfaces to cooler surfaces. Tile has a high thermal mass calculation as unlike carpet & timber, the clay is able to absorb heat during the day and release it in cooler evening periods. An added bonus is that because tiles absorb the heat, in summer they'll provide a cooling effect in living spaces during a hot day.*

CARRIBEAN

Whether on the floor or on the wall, Moroccan-look tiles are the perfect accent tile in any room. Either in soft subtle hues or bold contrasting colours, the intricate patterns available offer visual interest for splashbacks to floors.

CARRIBEAN CURACAO

CARRIBEAN ANTIGUA

BRUSSELS

A strongly veined calacatta-look with the most stunning white background. Available in both Matt and Neogrip finish. Neogrip is a finish that's designed to feel like a matt tile however has excellent grip properties when wet - in fact, it passes at a 0.54 slip rating!

Because of this innovative finish, Neoskin, Brussels feels beautiful underfoot.

White Matt & Grip finishes 1000x1000mm | PEI 3

Living rooms are special places where we gather to entertain our friends and family. Your living room can be a statement in style and individuality. Choose high gloss polished tiles for a luxurious finish or matt tiles for a modern, contemporary look.

VENICE VILLA

VENICE VILLA reinterprets the famous Venetian 'terrazzo', combining the appearance of crushed marble fragments with the excellent properties of full body porcelain. A real interplay of colours that capture and reflect light, enhancing homes and commercial spaces.

Size 600x600mm.

Full Body | Matt | R10

NICOLE ELIZABETH INTERIORS - VENICE VILLA GRAPHITE

If you're looking to give your home a luxury look without the expense of using real marble or granite, then terrazzo tiles are the perfect option. With a wide choice of colour variations and patterns, these tiles provide excellent versatility for pulling off a wide range of interior design styles, from contemporary to classic.

STROMBOLI VIRIDIAN GREEN

Subway tile hit the scene during the early 1900's when it was put in underground train stations in New York. People were inspired and began using it in their homes, adding it to their kitchens & bathrooms. The most common installation practices for subway tiles are herringbone, stacked, offset, step-ladder and cross-hatch.

COMPACT

Three new mosaics in the new popular concave design. Create a bit of interest with a subtle texture.

Used on the Block in Australia, these are a real hit!

Available in White, White-Blue and Dark Grey.

WHITE

WHITE BLUE

DARK GREY

In kitchens, a backsplash functions to protect the wall from splashes and splatters that come from cooking and preparing food, the only prerequisite is that tiles should be easy to keep clean. Equally important is that the surface is fire-resistant and low in porosity, both of which are found in tile.

Beyond that, the choices become mainly aesthetic. Your splash-back gets a lot of visual attention and lends itself perfectly to an opportunity to make a design statement.

A highly polished porcelain floor adds a luxurious feature to a living area. Use large format tiles in beautiful neutral shades to create the perfect platform for your furniture and decorations.

MARMI CLASSICI

Large format tiles, the MARMI range is a porcelain replica of classic marbles with varied appearance & veining. Very difficult to tell the difference between these collections and Natural stone.

Available in 595x1195mm / 600x1200mm in several finishes. All of those colours are available in larger slabs as well.

ULTRA

Stunning porcelain slabs from Italy in 1500x3000x6mm, available in varying finishes. They make for an amazing durable and seamless project, requiring far fewer grout lines than traditional sizes. Also available in 1195x595mm.

NERO MARQUINA

STATUARIO

ULTRA VERDE – available by indent order

PRODUCT APPLICATIONS

Tile is not only beautiful, but it's also a healthier choice for internal living spaces plus it's sustainable. Because of the base nature of the product, ie: clay, tiles contain none of the chemicals of other flooring products that create health issues and are free of 'VOC's' (Volatile Organic Compounds).

HILTON

Hilton is a big chip terrazzo look in 600x600mm . Big chunky earthy tones in brown, tan and greys/charcoals this is sure to add a stunning twist on traditional terrazzo.

Matt | PEI 4

ACTUAL SIZE DETAIL

HILTON TERRAZZO

Cosy homes come from good designs using clever material choices for active and passive heating. Porcelain tiles are great for both. Why? Passively, during winter, tiled floors absorb the heat from the sun during the day and release it as the temperature falls at night. Think of it as a massive sponge for all that free heat. During the Summer months, tiles are perfectly cool underfoot.

A well-crafted tile floor adds value as it implies a level of commitment and care that reflects the quality of the rest of your home. It intimates the lasting quality buyers can expect from your property.

ARCHIPRODUCT'S
Best Design in Finishes!

LUME

Variations in colour and patterning create interplays of light which add vibrancy to spaces. Suitable for floors, walls and exterior walls and pools. Lume in 60x240mm has a decidedly contemporary appeal and ultra-glossy surface. Lay horizontally, vertical or herringbone!

PEI 4 | Gloss

Choosing a grout colour, for both floors and for walls, sounds a little boring but is actually an important decision and can make or break your tiled design. Grey, Black and White are the usual go-to but you don't have to be limited by colour. You can decide whether you want to make your grout colour a feature of the design, be neutral or to blend in with your tile colour.

LOFT SYLVANIA & MINA GRAFTON

These 200x200mm porcelain tiles have a hint of weathering on the surface and edges emulating a well-loved and lived-in home. They work beautifully on floors or walls in every style from classic to bohemian-chic to urban. Functional and harmonious tiles, equally suitable for bathrooms, kitchens, foyers and living rooms. Adds a subtle and beautiful touch of elegance to any room.

PEI 4 | Matt | R10

LOFT SYLVANIA

Your bathroom is a canvas where you can express your unique style and create a highly functioning space at the same time. Tiles lend themselves perfectly to bathrooms as both ceramic and porcelain options are the most suitable surfaces for wet areas.

MINA GRAFTON

In interiors as in fashion, metals are a hot trend. From warm gold, brass, and copper accents, to cool chrome and stainless steel, metal provides a sophisticated but understated element of 'cool' to any space and is a great way to soften a scheme with industrial elements. As a firm favourite with many homeowners and with its affordability, there is a high demand for metal and metal-look products.

TIMBER-LOOK TILE

Timber has long been a coveted look for floors but has the added worry of damage from pets, high heels, and scratches, along with fading and water absorption. For this reason, timber-look tile continues to attract. Given its ability to look warm and inviting in living areas, foyers and in a full bathroom with both walls and floors, it's not surprising that wood-look tile is a popular choice for builders and renovators. It's also the perfect option for underfloor heating in Bathrooms and all living areas!

Check out some great options here for your project. Tile Warehouse has the largest selection of timber-look tile in the country!

BLUESTONE

Bluestone porcelain tiles are an emulation of the stunning 'Bluestone' which dates back to the 1800's. Bluestone is visually distinctive and has come to represent a sophisticated urban renewal. Specially designed with extraordinary attention to detail, this design is intricate, nuanced, rich and stunningly beautiful.

This indoor and outdoor range comes in size 600x600mm, in both 10mm and 20mm thicknesses with matching bullnose tiles and mosaics. With 40 faces/patterns, this range is ideal for both residential and commercial projects - decks, pools, walkways and balconies. In addition a bullnose, 80 faces, has been produced to meet the needs of stairs and pool surrounds.

The Bluestone series comes in Grey and Charcoal. Co-effic. of friction = 0.65 for 20mm and 10mm external tiles - R10 finish on the matt 600x600mm.

The options for outdoor spaces are numerous! These days, advanced technology means porcelain tiles emulate natural stone with colour running through the entire tile. They are also frost and stain-resistant whilst their slip-resistant finish makes these tiles perfect for outdoor use, especially around pools and outdoor entertaining areas.

GREY

CHARCOAL

TILE WAREHOUSE PORCELAIN PAVER RANGE

20mm Porcelain Pavers are twice the thickness of most tiles and have all the benefits of a regular porcelain tile. They are the ideal paving solution in that they will not stain, fade and require no treatment. They are also easy to install. Porcelain pavers and slabs can be laid dry on sand, grass, or gravel or they can be laid on concrete with adhesive, as you would a traditional porcelain tile.

Another alternative is to lay them using adjustable, raised supports such as our Pro-Jack supports with open joints allowing for drainage and providing a level tiled area out from doors to exterior living areas. Porcelain pavers tend to be more interesting in design compared to traditional pavers, and they often complement a 10mm porcelain range. This way they can be used both inside and outside creating internal, external flow. Here are a few of our porcelain paver collections:

Bluestone

Create indoor/outdoor flow with the Bluestone flooring solution. Also available in 10mm and in matching 300x600x20mm bullnoses.

What are "Jack" tiles? Also known as Porcelain Pavers, 'Jack' tiles are usually 20mm thick and can be laid on grass or sand but also in conjunction with pro-jacks. Pro-jacks, available exclusively from Tile Warehouse, are pods that are required in some areas of NZ if tiles are installed on outdoor decks. They are also height-adjustable so the solution for outdoor areas that require tiles to be raised up to the level of an interior living space. This creates a level threshold for optimum indoor-outdoor flow.

Black Nero

Matching 10mm for indoor-outdoor flow.

Memphis Silver

NG Silver Stone Paver

Matching 10mm for indoor-outdoor flow.

CLIFTON WHITE

Alpine

ALPINE Stone Composite, the latest innovation in flooring! Providing exceptional durability, temperature stability and impact resistance.

Two new beautiful colours in the Alpine range - Spotted Gum and Clifton White. Note Spotted Gum is a highly varied colour with variation similar to Blackbutt. It has elements of brown, tan and grey. Clifton White is a stunning warm white washed timber look with less variation. Great for a Scandinavian look or coastal properties but a nice inviting colour.

ALPINE is available in the preferred longer plank size; 230 x 1524mm.

Install ALPINE in: Kitchens, Living Areas, Entrances, Bedrooms and Hallways.

Designers and DIY option.

URBAN HOMES, HAMILTON

PRO-JACK TILE SYSTEM

Innovative, design driven architectural solutions for raised floors. Italian design and manufactured! Affordable!

The PRO-JACK TILE SYSTEM is a pedestal support system for indoor and outdoor raised floors. PRO-JACK height is fully adjustable from a minimum of 35mm to a maximum of 500mm.

PRO-JACK is a modular fully adjustable system made of Polypropylene suitable for outdoor areas like roof tops, terraces, pool surroundings, pedestrian walkways, decks and patios and available in the self-levelling head version and a fixed head version.

More affordable than most deck jack systems on the market, it is also top quality Italian designed and manufactured PLUS it has aluminium trim finishing options which architects and home owners will see as excellent solution to complete finished edges.

JENNIAN HOMES, HAVELOCK NORTH

Bathrooms are the place you start and finish your day, so it's important to create a special place that is practical yet provides the opportunity to relax. A small bathroom can actually benefit from a large tile. With fewer grout lines the walls and floor are less cluttered and the room visually expands. This concept is effective, because as our eyes see large tiles, our brain automatically associates them with a large space, in effect tricking it into thinking it is looking at a greater area than it really is. Large-format tiles also need less grout, less time to install, and require less maintenance.

JALCON HOMES, HOBSONVILLE

Backed by world-class engineering and the latest European design, IKON bathroom ware commits to quality, style, and affordability.

IKON mixers use the best quality and hard ceramic cartridge made out of advanced ceramic alloy with special coating protection. The thick and uniform plating produces a superior smooth mirror effect and lasting shining finish to IKON chrome collections.

IKON offers a wide range of finishes to complement any bathroom or kitchen interior. In addition to the traditional chrome finish, our collection also comes in white/chrome, black, and black/rose gold finishes.

UNIKA baths are made from 6mm American acrylic with stainless steel frames. American standard acrylic has a durable surface with excellent thermal properties that, unlike many options on the market, retain water temperature for longer.
