WHETHER YOU REQUIRE A NEW GARAGE DOOR OR ARE UPGRADING, YOU'VE GOT TO CONSIDER ONE OF OUR PREMIUM SUMMIT CEDAR SECTIONAL DOORS.

QUALITY CEDAR

Summit Cedar sectional doors are manufactured using quality Tongue & Groove profile boards purchased from New Zealand's biggest suppliers. We make sure only the finest cedar boards make the grade and since cedar has natural warmth and excellent insulation properties we don't skimp on thickness so you can use your garage the way you want to.

ROBUST HARDWARE AND FRAME

Heavy-duty steel hinges and componentry are matched to the roll-formed galvanised steel frame for lasting strength, security and durability - a must for any garage door system.

The cedar is glued and screwed to the frame, then clamped to ensure positive adhesion. The high-tech glue used was especially designed for demanding industrial applications.

DRYDEN'S WoodOil™ PROTECTION

Made in New Zealand to suit New Zealand conditions, Dryden's WoodOil™ clear base can be applied to all Summit Cedar Sectional Doors as a water-repellent, non-filming timber protector. See www.woodoil.co.nz for more information.

DOMINATOR OPENERS CREATE ADDED CONVENIENCE

With super quiet variable speed operation, belt drive options and feature rich design, Dominator Garage Door Openers are amongst the best in the world and professionally installed across New Zealand by trained authorised dealers.

RELIABLE AND SECURE

Your Dominator garage door is not only positively locked by the opener gearing, it benefits from our revolutionary new garage opening transmitter system, TrioCode™ 128.

Using the same 128-bit Advanced Encryption Standard (AES) security as relied upon by banks, (there's 309 trillion trillion code possibilities) it also transmits across three frequencies to overcome wireless interference issues.

Basically, you're 8 billion billion times more likely to win First Division Powerball than pick the correct TrioCode™ 128 code combination - one less thing to worry about.

Featuring TrioCode™ 128 Technology

Works with a wide range of cladding

Robust hardware and frame for reliability

Ties in with other timber accents
