Roomlite Acrylic dome and flashing

**STEEL OR TILE
ROOFS.**

The roof flashing is available in range of colours to closely match Colorbond® roofing.

Reflective
Flexible Duct

The components are factory assembled ready to install.

The Flexible duct fits around roof timbers.

Ceiling Diffuser

**ROOM
LITE**

**EASY D.I.Y.
OR
PROFESSIONALLY
INSTALLED**

Fitting instructions are enclosed with the product. The acrylic dome is factory fitted with a simple, but thoroughly reliable flashing surround. The flashing suits either tiled or steel clad roofs. The dome is just 300mm in diameter and there is no need to cut rafters or the tile battens. The reflective flexible duct dodges possible obstructions and slips over the ceiling diffuser.

Professional installation can be arranged by your retailer if required.

Obtainable from:

Note: Photographs which include the Roomlite logo have the light beams enhanced for visual effect.

THE SIMPLE SKYLIGHT SOLUTION

Roomlite provides an effective, low cost solution to lightening up those small dark areas of your home, and making them more usable and friendly. Now you can have natural light just where you need it.

The 300 mm diameter acrylic dome and flexible light transmitting duct allow installation to be made **without** having to cut roof or ceiling timbers. The Dome, Flashing and reinforced flexible Duct are factory assembled. Easy to follow do-it-yourself instructions are provided, but if you prefer, your retailer can arrange professional installation at a moderate cost. The roof flashing is available in a range of Colorbond® colours to match your **steel** or **tile** roof.
